“Acho que está na hora de **contribuir**”

The screenshot shows the GitHub repository for AngularJS. At the top, there's a search bar and navigation links for Pull requests, Issues, and Gist. The repository name 'angular / angular.js' is displayed with statistics: 3,884 Watchers, 41,859 Stars, and 18,483 Forks. A description states 'HTML enhanced for web apps' with a link to 'http://angularjs.org'. Below this, repository statistics are shown: 6,990 commits, 20 branches, 146 releases, and 1,302 contributors. A yellow progress bar is visible. The main section shows the 'master' branch selected, with a commit history table. The table lists recent commits with their descriptions and timestamps. On the right sidebar, there are links for Code, Issues (956), Pull requests (323), Wiki, Pulse, and Graphs. At the bottom of the sidebar, there's a section for cloning the repository via SSH, HTTPS, or Subversion, with buttons for 'Clone in Desktop' and 'Download ZIP'.
